Planen - das wer, was und bis wann in
bevor die eigentliche Arbeit losgeht

ToDos abarbeiten - Aufgaben verteilen
und erledigen

Kommunizieren - sich während der Arbeit
auf dem laufenden halten

Unterlagen - das Material mit dem wir
arbeiten verwalten und zur Verfügung
stellen

Den Fortschritt verfolgen - das wo-
stehen-wir während des Arbeitsprozesses

Was
brauchen
wir?

TAKE A WOOKIEE WITH YOU!

Wieviele Menschen
sind beteiligt?

klassische Groupware.....

Ellis, Gibbs und Rein (1991): Der Hauptunterschied zwischen Groupware und anderer Software zur Unterstützung mehrerer Benutzer, wie z.B. Mehrbenutzerdatenbanksysteme, ist der explizite Versuch von Groupware, die Isolation der Benutzer voneinander zu reduzieren. Groupware schafft also ein Gewahrsein über die Kollegen und deren Aktivitäten

...bleibt trotzdem noch
gefangen im „eMail
Paradigma“

Software as a Service: Projektmanagement zieht in die Wolke

Focus: Kommunikation

Z.B. Slack

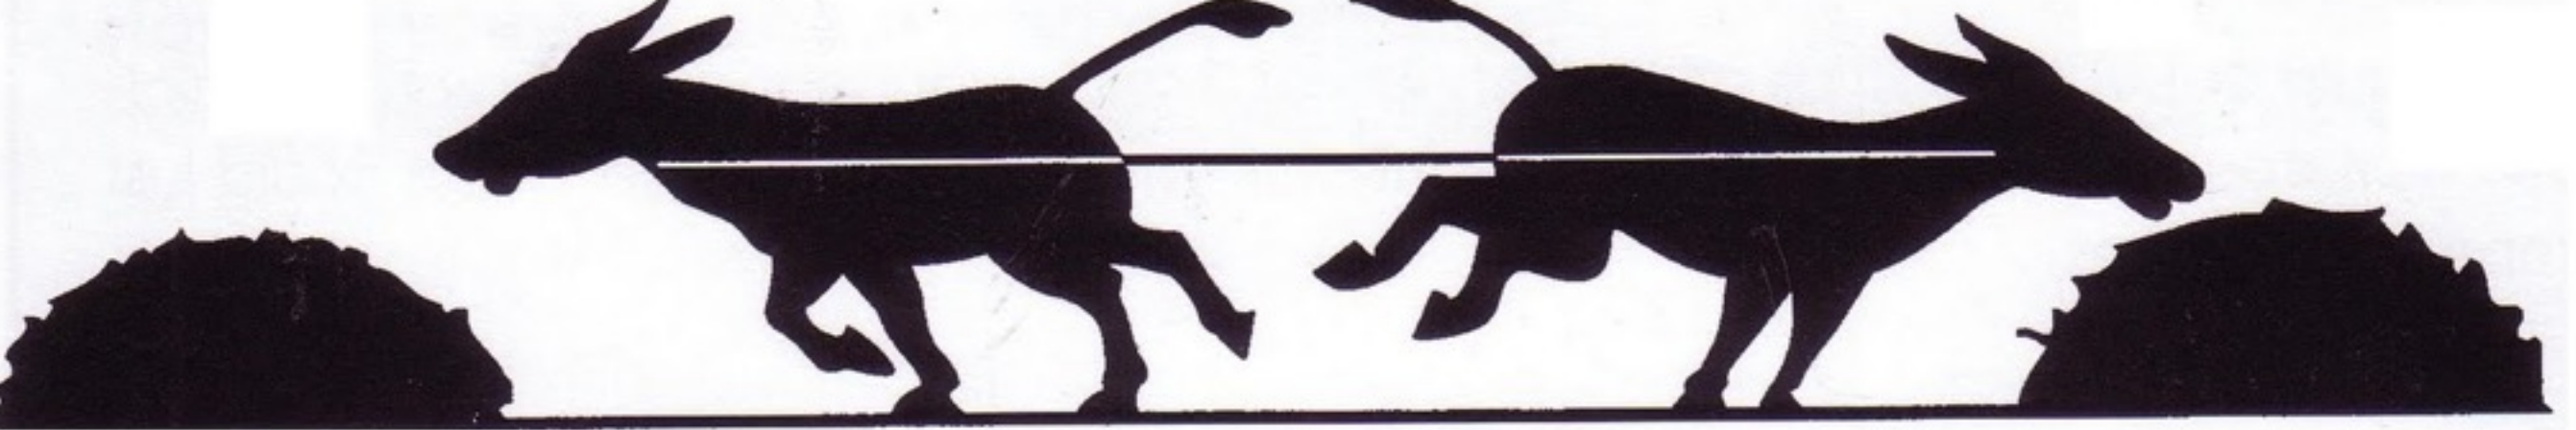

The screenshot displays a Slack interface for a workspace named "Acme Sites". On the left sidebar, under "CHANNELS", the "#changes" channel is selected. Below it are other channels like #api, #general, #marketing, #products (with a notification badge), #random, #sales, #support, and #web. The "DIRECT MESSAGES" section lists several contacts including slackbot, david, don, eric, jessica, liz, myles, stewart, and tara. At the bottom of the sidebar, a user profile for "kristel" is shown as "online".

The main area shows the "#changes" channel conversation. The messages are as follows:

- stewart** (1:05 PM): "Im'ma tweeting that <https://twitter.com/glitchlog/status/223600465462566912>"
Retweeted **Glitch Change Log** (@glitchlog): "12 new hairstyles & 19 new skin colors have been added to the Vanity. Taste the hairy rainbow! Forum post: <http://www.glitch.com/forum/general/24360/>"
Thursday, July 12th, 2012 7:11 PM
- myles** (1:07 PM): "Entering a street with a Qurazy for you now shows a pretty animated overlay where the growl used to go, for 10 seconds"
- liz** (1:09 PM): "Fixed bug #9358. Piggies shouldn't get stuck walking in place any more."
- bugbot** (1:10 PM) ★: "Bug #9358"
A table with bug details:

Title	Piggies are stuck walking in place
Creator	mackenzie
Assignee	liz
Status	fixed
Priority	normal
- eric** (1:14 PM): "@kristel, can you test on dev.glitch.com to see if coat sleeves are now working as expected?"
- kristel** (1:15 PM): "indeed they are! thanks @eric!"

At the bottom, there is a text input field with a plus icon on the left and an upward arrow on the right.
